Firebase notification:

The screenshot shows the 'Compose Message' interface in the Firebase console. The 'Message text' field contains 'Hey!'. The 'Message label (optional)' field contains 'This is my firebase connection working!'. The 'Delivery date' is set to 'Send Now'. The 'Target' section has 'User segment' selected. The 'Target user if...' section shows a dropdown menu with 'App' selected, and a list of apps with 'com.example.dwagner6506' selected. The 'Conversion events' section is expanded, showing 'Conversion events'. The 'Advanced options' section is also expanded. At the bottom, there are buttons for 'SAVE AS DRAFT' and 'SEND MESSAGE'.
